

1st Dissemination Workshop

SUMMARY

Climate change initiatives are challenging for energy intensive industries, potentially impacting employment and competitiveness. There's a risk of renewable energy surplification unless utilized efficiently. The Horizon Europe [CAPTUS project](#) advocates for carbon capture and utilization, converting industrial CO₂ and surplus green energy into valuable resources. During the project, three innovative technologies will be demonstrated, tryglicerides from CO₂ captured from steelmaking, bio-oil from CO₂ captured from a chemical plant, and formic acid from CO₂ captured from cement production. In line with these endeavors, CAPTUS will host its first online dissemination workshop on June 18, 2024, from 10.00-11.30 CET, featuring a keynote, project presentation and speakers, interventions from sisters projects and interactive sessions with the audience. The event will be concluded with a panel discussion of relevant stakeholders in the fields of CO₂ capture and utilization.

<https://twitter.com/ProjectCAPTUS>

Target audience: European actors active in energy sector and carbon capture (Technical experts in industry, scientific community, policy makers, representatives from professional organisations).

Date & Time: 18 June 2024, from 10.00 – 11.30 CET, *Online*

AGENDA

Welcome and Introduction: EEIP

10.00 - 10.10: Keynote Speech

Konstantina Plakaki, Hellenic Ministry Of Environment And Energy

10.10 – 10.20: CAPTUS presentation

Dr. Monique Bernardes Figueirêdo, Technology Project Manager, CIRCE

10.20 – 10.30: Sisters project presentation
i. SINNOGENES presentation
Dr. Ilias Zafeiropoulos, *Technology Director*, UBITECH ENERGY

10.30 – 10. 40: ii. FUELGAE presentation
Dr. Jose Miguel Campos, *Scientific Researcher*, CSIC

10.40 – 10.50: Interactive survey
Dr. Stefano Barberis, *Researcher*, UNIGE

10.50 – 11:30: Panel discussion
Moderator: Dusan Jakovljevic, *Policy & Communication Director*, EEIP
Dr. Milana Ayzenberg, CTO, CAOX
Marine Cornelis, Executive Director, Next Energy Consumer
Filippo Gasparin, Project Manager, CINEA
Prof. Dr. F. Pelayo Garcia De Arquer, Group Leader, ICFO

Conclusions and final remarks: EEIP

SAVE THE DATE!

1st Dissemination Workshop

18 June 2024,
10.00 – 11.30 CET,
Online

Funded by
the European Union
